Introduction to IRC2026 AICHI

International Rubber Conference 2026 AICHI and Rubber & Elastomer Technical Exhibition

The Society of Rubber Science and Technology, Japan is currently making preparations for IRC 2026 AICHI—the International Rubber Conference 2026 and Rubber & Elastomer Technical Exhibition, which will be held in Japan for the first time in ten years.

Hosted by the Society, the conference will take place from November 2 to November 6, 2026 (the exhibition will run from November 3 to November 6) at Aichi International Exhibition Center (Aichi Sky Expo), near Nagoya in Aichi Prefecture, Japan. The venue is conveniently located next to Chubu Centrair International Airport and is accessible in as little as 28 minutes by train from Nagoya Station.

We have already begun accepting submissions for technical presentations at the conference and applications from companies wishing to exhibit at the technical exhibition. The exhibition aims to host more than 100 exhibitors related to rubber and elastomers. Admission to the exhibition is free and open to all visitors.

The IRC 2026 AICHI Organizing Committee has produced promotional videos for both the conference and the exhibition, which are now available on the IRC 2026 official website (www.irc2026.com) and YouTube. These promotional videos were created using the latest DX technologies, including generative AI. In addition, animated videos designed for general audiences have also been produced.

The Public Relations Committee of IRC2026 AICHI will continue to promote the conference and exhibition through various communication channels, reaching out to

professionals in the rubber and tire industries as well as the local region in the lead-up to the event.
